16. Authorisation of the board of directors to decide on the repurchase and/or acceptance as pledge of the company own shares

The board of directors proposes that the general meeting authorise the board of directors to decide on the repurchase and/or acceptance as pledge of the Company's own shares:

Under the authorisation, a maximum of 1,800,000 shares may be repurchased and/or accepted as pledge in one or more tranches, which corresponds to approximately 6.45% of all registered shares in the company on the date hereof.

The shares are to be repurchased using the company's unrestricted equity, on a multilateral trading facility in trading organised by Nasdaq Helsinki Ltd in accordance with its rules and instructions, due to which the repurchase will take place in directed manner, i.e. otherwise than in proportion to the shareholdings of the shareholders.

The consideration payable for the repurchase of the shares shall be based on the price of the company's share on a multilateral trading facility so that the minimum price for the repurchased shares is the lowest market price quoted on a multilateral trading facility during the validity period of the authorisation, and correspondingly, the maximum price is the highest market price of the share quoted on a multilateral trading facility during the validity period of the authorisation.

The shares can be repurchased or accepted as pledge in order to develop the company's equity structure, implement mergers and acquisitions or financial arrangements, implement the company's incentive schemes or to be otherwise further transferred or nullified.

The authorisation will revoke the authorisation issued by the company's annual general meeting of 21 May 2019 to decide on the repurchase of the company's own shares.

It is proposed that the authorisation be valid until 30 November 2021.

17. Authorisation of the board of directors to decide on the issuance of shares and/or the issuance of option rights and other special rights entitling to shares

The company's board of directors proposes that the general meeting authorise the board of directors to decide on the issuance of shares and/or the issuance of option rights or other special rights entitling to shares as follows:

Under the authorisation, a maximum of 2,700,000 shares may be issued in one or several tranches, corresponding to approximately 9.67% of all registered shares in the company on the date hereof. The share issue and/or issue of option rights or other special rights can be carried out in deviation from the shareholders' pre-emptive subscription right (directed issue).

Under the authorisation, shares and/or option rights and other special rights can be issued, e.g. for the implementation of mergers and acquisitions or financial arrangements, in consideration for new licenses, for the establishment of new strategic partnerships, for the implementation of the company's incentive schemes, or for other purposes decided by the board of directors.

However, under the authorisation, a maximum of 1,396,000 shares may be issued for the implementation of the company's incentive schemes, which corresponds to approximately 5% of all registered shares in the company on the date hereof.

Under the authorisation, the board of directors may issue either new shares or treasury shares. The board of directors would be authorised to decide on all other conditions of the issuance of shares and/or option rights or other special rights.

The authorisation will not revoke prior authorisations of the board of directors to decide on the issuance of shares and/or option rights or other special rights entitling to shares.

It is proposed that the authorisation be valid until 30 April 2025.
